

# Energy Informatics

New lecture, seminar, and lab for students of all quantitative disciplines.  
Held in English language.

Learn how advanced information technology helps to build a sustainable energy future. Understand the operation of power systems and the challenges resulting from the integration of renewable energy. Get to know smart grid concepts and gain hands-on experience using and developing corresponding software tools.

Lecture (5 ECTS): Mon 3:00 – 4:30 pm, room N3815

Thu 4:45 – 6:15 pm, room N3815

Seminar (5 ECTS): Wed 3:00 – 4:30 pm, room N3815

Lab (5 ECTS): Mon 9:00 – 11:45 am, room N3815
